IN WORK SPACES

Ripensare il Futuro del Design degli Spazi di Lavoro

Le modalità di organizzazione del lavoro sono oggetto di un continuo mutamento che ha riscontrato una forte accelerazione negli ultimi anni. Il passaggio dal lavoro di ufficio allo smart working ha evidenziato pregi e carenze delle nuove metodologie organizzative. Organizzazioni ibride e flessibili portano a nuove figure quali il “lavoro diffuso” o il “lavoro nomade”.

Questo inevitabilmente richiede un ripensamento degli spazi di lavoro, che necessitano di setting e allestimenti in grado di creare le condizioni migliori per queste nuove modalità. Spazi che prevedano la concentrazione o il confronto, sedute operative facilmente adattabili a vari utenti o spazi connettivi che diventano vere e proprie aree di riunione informale. Le collezioni di sedute SITLOSOPHY® sono pensate, progettate e realizzate per andare incontro alle nuove tendenze, cercando di fornire ai progettisti degli strumenti nuovi e funzionali per allestire gli spazi di lavoro.

Rethinking the Future of Workplace Design

The ways we organize work have undergone continuous change, with a significant acceleration in recent years. The shift from office-based work to home working has highlighted both advantages and limitations of these new organizational methods. Hybrid and flexible organizations have given rise to new roles, such as “distributed work” or “nomadic work.”

This inevitably calls for a re-evaluation of workplaces, which now require settings and arrangements that cater to the best conditions for these emerging modes. Spaces that facilitate concentration, collaboration, and adaptability—seating solutions that can easily accommodate various users or connective areas that serve as informal meeting zones. The SITLOSOPHY® seating collections are purposefully designed to align with these evolving trends, providing designers with innovative and functional tools for planning work spaces.

Repenser l'Avenir du Design des Espaces Professionnels

Les modes d'organisation du travail ont connu des changements continus, avec une accélération significative ces dernières années. Le passage du travail au bureau au télétravail a mis en évidence les avantages et les limites de ces nouvelles méthodologies organisationnelles. Les organisations hybrides et flexibles ont donné naissance à de nouveaux rôles, tels que le “travail distribué” ou le “travail nomade”. Cela appelle inévitablement à une réévaluation des espaces de travail, qui nécessitent désormais des aménagements adaptés aux meilleures conditions pour ces modes émergents. Des espaces favorisant la concentration, la collaboration et l'adaptabilité des solutions d'ameublement pouvant facilement accueillir différents utilisateurs ou des zones de connexion servant de lieux de réunion informels. Les collections de sièges SITLOSOPHY® sont spécialement conçues pour s'aligner sur ces tendances évolutives, offrant aux créateurs des outils innovants et fonctionnels pour la configuration des espaces de travail.

SITLOSOPHY® è un marchio nato da una tradizione familiare di produzione di sedute per ufficio e contract, con cinquant'anni di esperienza.

Il nome stesso, SITLOSOPHY®, unisce due concetti fondamentali: "sitting" (sedersi) e "philosophy" (filosofia). Sedersi è uno dei gesti più naturali dell'essere umano: lo facciamo per lavorare, riposarci, mangiare o semplicemente stare insieme in momenti conviviali. Tutte queste attività richiedono spazi adeguati che facilitino e rendano piacevole l'esperienza. L'obiettivo del progetto SITLOSOPHY® è creare sedute adatte a questi vari contesti, fornendo strumenti eleganti e funzionali per progettare spazi di lavoro, relax e socializzazione.

SITLOSOPHY® is a brand born from a family tradition of manufacturing office and contract seating, with fifty years of experience. The name itself, SITLOSOPHY®, combines two fundamental concepts: "sitting" and "philosophy." Sitting is one of the most natural gestures for humans: we sit to work, rest, eat, or simply come together in convivial moments.

All these activities require suitable spaces that facilitate and enhance the experience. The goal of the SITLOSOPHY® project is to create seating solutions suitable for these various contexts, providing elegant and functional tools for designing workspaces, relaxation areas, and social spaces.

SITLOSOPHY® est une marque née d'une tradition familiale de production de sièges de bureau et collectivité, avec cinquante ans d'expérience. Le nom lui-même, SITLOSOPHY®, associe deux concepts fondamentaux : "sitting" (s'asseoir) et "philosophy" (philosophie). S'asseoir est l'un des gestes les plus naturels pour l'être humain : nous nous asseyons pour travailler, nous reposer, manger ou simplement nous retrouver lors de moments conviviaux.

Toutes ces activités nécessitent des espaces appropriés qui facilitent et améliorent l'expérience. L'objectif du projet SITLOSOPHY® est de créer des solutions d'assise adaptées à ces différents contextes, en fournissant des outils élégants et fonctionnels pour la conception d'espaces de travail, de détente et de socialisation.

#MadeInItaly

Il “Made in Italy” rappresenta uno dei valori fondamentali del brand SITLOSOPHY®. Quando architetti o clienti visitano i nostri stabilimenti produttivi, rimangono spesso sorpresi dall'importanza della manualità che sta alla base della lavorazione per realizzare le nostre sedute.

Sebbene l'azienda sia dotata di macchine a controllo numerico per il taglio e si avvalga di stampi propri per la lavorazione dello schiumato e del legno curvato, l'attenzione alla qualità e ai dettagli è garantita da maestranze specializzate. Questi artigiani lavorano in modo sartoriale su ciascuna seduta, conferendo un tocco unico e artigianale. Questo impegno per l'eccellenza artigianale è ciò che caratterizza il reale valore del “Made in Italy”, riconosciuto in tutto il mondo.

“Made in Italy” represents one of the core values of the SITLOSOPHY® brand. When architects or clients visit our production facilities, they are often surprised by the importance of craftsmanship that underpins the creation of our seating solutions.

While our company uses computer-controlled machines for cutting and proprietary molds for foam and curved wood, the commitment to quality and attention to detail are guaranteed by skilled artisans. These craftsmen work meticulously on each seat, infusing it with a unique and artisanal touch. This dedication to artisanal excellence is what truly characterizes the value of “Made in Italy,” recognized worldwide.

“Made in Italy” représente l'une des valeurs fondamentales de la marque SITLOSOPHY®. Lorsque les architectes ou les clients visitent nos usines, ils sont souvent surpris par l'importance de l'artisanat qui sous-tend la création de nos chaises.

Bien que notre entreprise utilise des machines à commande numérique pour la découpe et des moules exclusifs pour la mousse et le bois courbé, l'engagement envers la qualité et l'attention portée aux détails sont garantis par des artisans qualifiés. Ces artisans travaillent méticuleusement sur chaque siège, lui insufflant une touche unique et artisanale. Cet attachement à l'excellence artisanale caractérise véritablement la valeur du “Made in Italy”, reconnue dans le monde entier.

Il valore del design è un elemento fondamentale in ogni progetto sviluppato da SITLOSOPHY®. Bruno Munari affermava che “Il design è l'arte di rendere utili le cose”: non si tratta solo di estetica, ma di funzionalità e di rispondenza ai bisogni reali degli utilizzatori. La progettazione di sedute che siano strumenti utili e innovativi per gli spazi di lavoro e collettivi rappresenta una sfida che affrontiamo insieme ai nostri designer.

Design value is a fundamental element in every project developed by SITLOSOPHY®. Bruno Munari once said, “Design is the art of making things useful”: it's not just about aesthetics but also functionality and meeting the real needs of users. Designing seats that serve as useful and innovative tools for workspaces and communal areas is a challenge we tackle alongside our designers.

La valeur du design est un élément fondamental dans chaque projet développé par SITLOSOPHY®. Bruno Munari disait autrefois : “Le design est l'art de rendre les choses utiles” : il ne s'agit pas seulement d'esthétique, mais aussi de fonctionnalité et de réponse aux besoins réels des utilisateurs. Concevoir des sièges qui servent d'outils utiles et innovants pour les espaces de travail et les zones collectives est un défi que nous relevons aux côtés de nos créateurs.
